FACULTY

Prof. Yong Chan LEE Prof. Tae il KIM Prof. Sang kil LEE Prof. Sung Kwan SHIN Prof. Jun Chul PARK Prof. Jae Jun PARK Prof. Eun Hye KIM

• Severance Hospital
Seoul, Korea
- Head of Gastroenterology
department

VENUE INFORMATION

Severance Hospital, One of the biggest medical center in East Asia, founded in 1885 and is Korea's first westernized hospital. With the cooperation of the Korean government, American businessman and medical missionary launched what is now Korea's most globally advanced hospital.

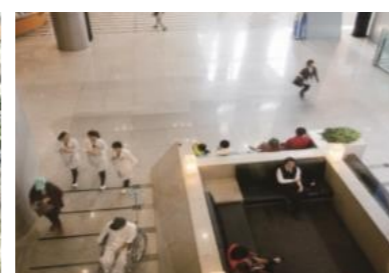

Severance in numbers

- 134 years history; 1st hospital in Korea
- 2,500 doctors in 51 clinical department
- 4 million outpatients, 1.2million in patients/year
- Famous for int'l medical tour; 50,000 int'l patients/year
- 100,000+ robotic cases (2016), 1,700 cases per year
- 60,000 endoscopy procedures/year

GI Center of Excellence - Pentax Medical designated this hospital as a center of excellence, COE for training and research of therapeutic endoscopy, as this hospital stands at the center of Korea's rapidly developing medical field. Both Pentax Medical and Severance Hospital signed an agreement to develop the training and research programs for international doctors with excellent faculty in cutting edge facility. Many international doctors come to this hospital to learn more endoscopic procedures and the faculty is often invited to international congress and hands-on courses as lecturers and instructors. Severance endoscopy center performs various diagnostic and therapeutic procedures including ERCP, EUS, and endoscopy. In GI, they use Pentax Medical's high end endoscopy and EUS system.
